A single source of information about pathologic lesions of the adrenal, the urinary tract, and the male genital system, minimizing the need to consult numerous texts of limited scope, this book contains gross photos and photomicrographs of virtually every pathologic entity, and variants of those entities. The book is lavishly illustrated with images accompanied by text that explains the visual images, highlighting key diagnostic features and providing brief but helpful discussions of the differential diagnosis.

This book is designed for practicing pathologists and pathologists in training as well as urologists, GU radiologists, GU radiation oncologists, and GU medical oncologists.
