New Technologies in Surgical Oncology (Updates in Surgery) Antonio (Ed.) Mussa

Oncological surgeons are often requested in their clinical practice to identify and manage uncommon and complex situations. It is therefore of the utmost importance that they are well aware of the most recent technological evolutions, in order to achieve the best possible results in term of oncological outcome, with a concern on quality of life and economical issues. Furthermore, new techniques can give a fundamental contribution in overcoming the limitations of standard approaches. An essential aim of this book is to underline the great importance and the need of an effective coordination of multi-disciplinary care among surgeons, medical oncologists, radiation therapists, plastic surgeons and ancillary services, in order to optimise patient outcome.
