*At the turn of the twentieth century, London's political climate is in turmoil, as women fight for the right to vote. Dody McClelland has her own battles to fight. As England's first female autopsy surgeon, not only must she prove herself, she must prove that murder treats everyone equally...*

After a heated women's rights rally turns violent, an innocent suffragette is found murdered. When she examines the body, Dody McClelland is shocked to realize that the victim was a friend of her sister—fueling her determination to uncover the cause of the protestor's suspicious death.

For Dody, gathering clues from a body is often easier than handling the living—especially Chief Detective Inspector Pike. Pike is looking to get to the bottom of this case but has a hard time trusting anyone—including Dody. Determined to earn Pike's trust and to find the killer, Dody will have to sort through real and imagined secrets. But if she's not careful, she may end up on her own examination table...
