Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library)

Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library)

Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library)

The geometry of power exponents includes the Newton polyhedron, normal cones of its faces, power and logarithmic transformations. On the basis of the geometry universal algorithms for simplifications of systems of nonlinear equations (algebraic, ordinary differential and partial differential) were developed.

The algorithms form a new calculus which allows to make local and asymptotical analysis of solutions to those systems.

The efficiency of the calculus is demonstrated with regard to several complicated problems from Robotics, Celestial Mechanics, Hydrodynamics and Thermodynamics. The calculus also gives classical results obtained earlier intuitively and is an alternative to Algebraic Geometry, Differential Algebra, Lie group Analysis and Nonstandard Analysis.

From reader reviews:

Sharon Broome:

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to learn everything in the world. Each reserve has different aim as well as goal; it means that publication has different type. Some people truly feel enjoy to spend their a chance to read a book. They are really reading whatever they get because their hobby is definitely reading a book. Think about the person who don't like reading through a book? Sometime, particular person feel need book if they found difficult problem as well as exercise. Well, probably you will require this Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library).

Glenn Bail:

The book Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) can give more knowledge and information about everything you want. Why then must we leave a good thing like a book Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library)? Several of you have a different opinion about guide. But one aim that book can give many info for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or facts that you take for that, you may give for each other; it is possible to share all of these. Book Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) has simple shape but the truth is know: it has great and large function for you. You can seem the enormous world by wide open and read a guide. So it is very wonderful.

Christopher Palmer:

Book is to be different for each and every grade. Book for children till adult are different content. To be sure that book is very important usually. The book Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) seemed to be making you to know about other expertise and of course you can take more information. It is extremely advantages for you. The reserve Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) is not only giving you much more new information but also being your friend when you truly feel bored. You can spend your own personal spend time to read your book. Try to make relationship together with the book Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library). You never sense lose out for everything when you read some books.

Anthony Malloy:

Reading a guide make you to get more knowledge from the jawhorse. You can take knowledge and information coming from a book. Book is created or printed or outlined from each source that will filled update of news. With this modern era like today, many ways to get information are available for an individual. From media social such as newspaper, magazines, science publication, encyclopedia, reference

book, novel and comic. You can add your knowledge by that book. Ready to spend your spare time to spread out your book? Or just searching for the Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) when you necessary it?
