European Multilingualism: Current Perspectives and Challenges (Multilingual Matters) Rosita Rindler Schjerve, Eva Vetter

This book provides a broad sociolinguistic perspective on major questions of political and cultural Europeanization. It is concerned with European multilingualism as it actually results from the intersecting endeavour of policy making and scientific research. This volume argues that the EU must overcome the major discrepancies of its linguistic diversity politics by developing into a multiple inclusive society beyond the nation-state in order to seriously unfold European multilingualism as a political goal. Expanding on the theoretical and methodological approaches developed within the EU project LINEE (Languages in a Network of European Excellence), this book further focuses on the LINEE key variables of European multilingualism i.e. 'culture', 'discourse', 'identity', 'ideology', 'knowledge', 'LPP', 'multi-competence', and 'power & conflict'. Against this background, this study argues for reconceptualising European multilingualism on the basis of an integrative and multi-focal approach.
