The Last Christian on Earth: Uncover the Enemy's Plot to Undermine the Church Os Guinness

In one of the world's great ironies, the Christian faith contributed decisively to the rise of the modern world, but has been undermined decisively by the modern world it helped to create. The Christian faith has become its own gravedigger. In the 25 years since philosopher and social critic Os Guinness first published *The Gravedigger Files*, much has happened: the fall of the Soviet Union, the rise of the computer age, the reemergence of China and India, the rise of Islamic terrorism, and the worldwide revitalization and politicization of religion. The central mystery of Dr. Guinness's spy novel inspired by his affection for John le Carré thrillers remains unsolved: Can Christians regain the full integrity of faith in Christ while fully and properly engaged in the advanced modern world? This new edition of *The Last Christian on Earth*, which includes previously unpublished top-secret memos, is Dr. Guinness's parable about the future of the Christian church in the West. Written in the grand tradition of le Carré, Fleming, and Clancy, this thriller pays homage to the genre while transcending it--because the real-life ending has yet to be written!
