Eight Little Piggies: Reflections in Natural History (Norton Paperback) Stephen Jay Gould

"There is no scientist today whose books I look forward to reading with greater anticipation of enjoyment and enlightenment than Stephen Jay Gould."?Martin Gardner

Among scientists who write, no one illuminates as well as Stephen Jay Gould does the wonderful workings of the natural world. Now in a new volume of collected essays?his sixth since *Ever Since Darwin*?Gould speaks of the importance of unbroken connections within our own lives and to our ancestral generations. Along with way, he opens to us the mysteries of fish tails, frog calls, and other matters, and shows once and for all why we must take notice when a seemingly insignificant creature is threatened, like the land snail *Partula* from Moorea, whose extinction he movingly relates.
