A sequel to Year Zero, this book is a handbook for cocreating the new earth by means of a powerful healing practice known as Ilahinoor. More than a set of techniques, Ilahinoor is a morphogenetic field of unlimited possibilities sourced within the waves of cosmic light moving toward us from the galactic center, leading to what has been known as the "supramental descent" of spirit into matter -- or what some refer to as "ascension." A healing manual that anyone can easily follow, this book highlights the history, development, and practical applications of this amazing healing work, as well as stories and experiences from people all over the world.
