## The Muse Suzie Carr

Jane Knoll doesn't realize it yet, but life is about to take a daring turn. For the past decade, Jane's been able to recapture her sense of peace after years of being bullied. By day she edits marketing jargon, and by night she watches television reruns with her gay neighbor, Larry. She's comfortable. Then, after she meets her new coworker, Eva, television reruns are no longer an option. Too shy to get to know Eva in real life, Jane creates an online alter ego and starts to follow her on Twitter.

Face-to-face, Jane is nothing more than Eva's nondescript, clumsy coworker: a social catastrophe. But, behind the safety of her laptop screen, she becomes confident and empowered with purpose and talent. The two hit it off, and what forms is an undeniable creative union, one with the ability to positively change many lives.

There's just one major problem standing in the way, though. Can she fulfill her purpose and make a change in the world while living the rest of her life as an alter ego? Is she brave enough to reveal her true identity and risk squandering all she's gained by it?

This audiobook delves into the dramatic world of women in love, anti-bullying, sexuality, social psychology, and social anxiety.
