**Genética cuantitativa aplicada al mejoramiento animal (Spanish Edition)** Jorge Humberto Quijano, José Julián Echeverri

Hasta hace muy poco tiempo la genética cuantitativa y el mejoramiento animal se consideraban como un pilar de la zootecnia con nula o muy poca aplicación a nivel de explotaciones en Colombia.

Afortunadamente, en la actualidad esto ha cambiado y hoy se reconoce como una herramienta de transformación, junto con la nutrición y la reproducción para el mejoramiento en los rendimientos de las características de importancia económica objeto de la selección. Hoy la evaluación genética de las poblaciones es una necesidad sentida por los ganaderos, las asociaciones y el mismo Estado que, a través de entidades como Corpoica y la Universidad Nacional de Colombia, vienen realizando este trabajo.
