Thoroughly updated for its Second Edition, Non-Hodgkin Lymphomas is the definitive textbook on the biology, diagnosis, staging, and treatment of all forms of non-Hodgkin lymphomas. With backgrounds in medical and radiation oncology, molecular biology, and pathology, the editors and contributors provide an international, multidisciplinary approach to the topic.

This edition is the first text using the new World Health Organization classification of non-Hodgkin lymphomas. The book offers complete coverage of the most current techniques for diagnosis, staging, and treatment, the approach to specific types of lymphoma, and special problems common to the management of patients with these disorders.

A companion Website includes the fully searchable text and downloadable images.
