Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science)

Michal Forišek, Monika Steinová

Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) Michal Forišek, Monika Steinová

There is a significant difference between designing a new algorithm, proving its correctness, and teaching it to an audience. When teaching algorithms, the teacher's main goal should be to convey the underlying ideas and to help the students form correct mental models related to the algorithm. This process can often be facilitated by using suitable metaphors. This work provides a set of novel metaphors identified and developed as suitable tools for teaching many of the "classic textbook" algorithms taught in undergraduate courses worldwide. Each chapter provides exercises and didactic notes for teachers based on the authors' experiences when using the metaphor in a classroom setting.

From reader reviews:

Rose Rowe:

Here thing why this Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) are different and trustworthy to be yours. First of all reading a book is good but it really depends in the content of the usb ports which is the content is as scrumptious as food or not. Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) giving you information deeper and in different ways, you can find any guide out there but there is no publication that similar with Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science). It gives you thrill examining journey, its open up your own eyes about the thing this happened in the world which is might be can be happened around you. You can actually bring everywhere like in park, café, or even in your method home by train. If you are having difficulties in bringing the branded book maybe the form of Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) in e-book can be your alternative.

William Sanders:

Now a day people that Living in the era just where everything reachable by connect to the internet and the resources included can be true or not call for people to be aware of each facts they get. How a lot more to be smart in having any information nowadays? Of course the answer is reading a book. Studying a book can help persons out of this uncertainty Information specially this Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) book because this book offers you rich information and knowledge. Of course the info in this book hundred per-cent guarantees there is no doubt in it as you know.

Pierre Winter:

The guide with title Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) has lot of information that you can learn it. You can get a lot of benefit after read this book. This book exist new expertise the information that exist in this publication represented the condition of the world now. That is important to yo7u to find out how the improvement of the world. This kind of book will bring you in new era of the internationalization. You can read the e-book with your smart phone, so you can read the idea anywhere you want.

Melinda McKinney:

You can spend your free time to learn this book this book. This Explaining Algorithms Using Metaphors (SpringerBriefs in Computer Science) is simple to develop you can read it in the park your car, in the beach, train along with soon. If you did not get much space to bring the particular printed book, you can buy the particular e-book. It is make you easier to read it. You can save the book in your smart phone. Therefore there are a lot of benefits that you will get when you buy this book.
