## **Coppicing and Coppice Crafts: A Comprehensive Guide** Rebecca Oaks

Coppicing is an ancient method of enhancing woodland biodiversity. The key to successful coppicing is to nurture the new coppice shoots. In return, a coppice will provide an endless supply of wood for a wide range of uses, and the authors present detailed instruction on how to produce many kinds of woodland products from besom brooms, firewood and charcoal to more challenging items such as hazel hurdles and coracles. Topics covered in Coppicing & Coppice Crafts include; how to find a suitable woodland and the pitfalls involved; the equipment, tools and resources that you will need, together with health and safety issues; tax issues, the law and what you can and cannot do; all aspects of coppice management including pests and diseases, and how to plant a new coppice; the flora and fauna of the coppice and how it should be managed; a wide range of coppice woods and crafts and how the products are made; wood as a fuel, including charcoal-making, the best types of wood to burn, wood-fired boilers, woodchips, pellets, kindling, logs and much more, with a useful glossary, bibliography and list of addresses.
