## **Green Book Standard Specifications for Public Works Construction** Greenbook Committee

For 33 years and 11 previous triennial editions, the "Greenbook" has provided uniform standards for materials and methods of construction that are easily understood, used and adopted by engineers, contractors and public works officials all across the U.S. It is the official specifications document for public works construction in municipalities throughout the West, and interest in the "Greenbook" has extended nationwide and internationally. This 2000 edition has been updated to include the most recently tested and accepted techniques, technology and methods of installation, and complies with Federal regulations requiring that all projects use the Metric system.

The twelfth edition also includes:

Hundreds of lines of new and improved specifications

All conversions from English to Metric-don for you

New and improved index for those hard to find items

All manufactured items - in Metric standards

Thousands of hours of research

All figures given in both Metric and English

Over 750 pages packed with specifications

Hundreds of charts and tables
