Numerical Solution of Partial Differential Equations on Parallel Computers: 51 (Lecture Notes in Computational Science and Engineering) Are Magnus Bruaset, Aslak Tveito
This book surveys the major topics that are essential to high-performance simulation on parallel computers or computational clusters. These topics, including programming models, load balancing, mesh generation, efficient numerical solvers, and scientific software, are vital ingredients in the research fields of computer science, numerical analysis, and scientific computing. In addition to presenting the technological basis, this volume addresses selected applications that combine different techniques in order to meet demanding computational challenges. Through contributions from a wide range of internationally acknowledged experts, this book gives a to-the-point and self-containing overview of efficient ways to deal with large-scale simulation problems.

From reader reviews:

Lillie Levine:

The book Numerical Solution of Partial Differential Equations on Parallel Computers: 51 (Lecture Notes in Computational Science and Engineering) can give more knowledge and also the precise product information about everything you want. Exactly why must we leave a good thing like a book Numerical Solution of Partial Differential Equations on Parallel Computers: 51 (Lecture Notes in Computational Science and Engineering)? Some of you have a different opinion about book. But one aim in which book can give many details for us. It is absolutely suitable. Right now, try to closer along with your book. Knowledge or info that you take for that, you may give for each other; you may share all of these. Book Numerical Solution of Partial Differential Equations on Parallel Computers: 51 (Lecture Notes in Computational Science and Engineering) has simple shape but the truth is know: it has great and massive function for you. You can search the enormous world by available and read a publication. So it is very wonderful.

Leopoldo Gonzalez:

The particular book Numerical Solution of Partial Differential Equations on Parallel Computers: 51 (Lecture Notes in Computational Science and Engineering) will bring you to the new experience of reading the book. The author style to describe the idea is very unique. Should you try to find new book to study, this book very suitable to you. The book Numerical Solution of Partial Differential Equations on Parallel Computers: 51 (Lecture Notes in Computational Science and Engineering) is much recommended to you to read. You can also get the e-book from official web site, so you can more easily to read the book.

Roxanne Pineda:

The actual book Numerical Solution of Partial Differential Equations on Parallel Computers: 51 (Lecture Notes in Computational Science and Engineering) has a lot associated with on it. So when you check out this book you can get a lot of gain. The book was authored by the very famous author. The author makes some research ahead of write this book. This specific book very easy to read you can obtain the point easily after reading this book.

William Chestnut:

Does one one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Attempt to pick one book that you never know the inside because don't assess book by its cover may doesn't work here is difficult job because you are afraid that the inside maybe not while fantastic as in the outside look likes. Maybe you answer might be Numerical Solution of Partial Differential Equations on Parallel Computers: 51 (Lecture Notes in Computational Science and Engineering) why because the fantastic cover that make you consider in regards to the content will not disappoint you actually. The inside or content will be fantastic as the outside as well as cover. Your reading 6th sense will directly guide you to pick up this

book.
