Rossini (Master Musicians Series) Richard Osborne

Gioachino Rossini was one of the most influential, as well as one of the most industrious and emotionally complex of the great nineteenth-century composers. Between 1810 and 1829, he wrote 39 operas, a body of work, comic and serious, which transformed Italian opera and radically altered the course of opera in France. His retirement from operatic composition in 1829, at the age of 37, was widely assumed to be the act of a talented but lazy man. In reality, political events and a series of debilitating illnesses were the determining factors. After drafting the *Stabat Mater* in 1832, Rossini wrote no music of consequence for the best part of twenty-five years, before the clouds lifted and he began composing again in Paris in the late 1850s. During this glorious Indian summer of his career, he wrote 150 songs and solo piano pieces his 'Sins of Old Age' and his final masterpiece, the *Petite Messe solennelle*. The image of Rossini as a gifted but feckless amateur—the witty, high-spirited *bon vivant* who dashed off *The Barber of Seville* in a mere thirteen days—persisted down the years, until the centenary of his death in 1968 inaugurated a process of re-evaluation by scholars, performers, and writers. The original 1985 edition of Richard Osborne's pioneering and widely acclaimed *Rossini* redefined the life and provided detailed analyses of the complete Rossini oeuvre. Twenty years on, all Rossini's operas have been staged and recorded, a Critical Edition of his works is well advanced, and a scholarly edition of his correspondence, including 250 previously unknown letters from Rossini to his parents, is in progress. Drawing on these past two decades of scholarship and performance, this new edition of *Rossini* provides the most detailed portrait we have yet had of one of the world's best-loved and most enigmatic composers.
